

Special Events Lend-A-Bin Program

The City of Charleston's Keep Charleston Beautiful is excited to offer collapsible wire frame recycling bins to interested groups. The collapsible Clear Stream bins are possible thanks to Keep America Beautiful and the Anheuser-Busch Foundation.

Keep Charleston Beautiful will provide up to 50 collapsible frames and lids for events and functions hosted within City Parks and Facilities. Groups will need to provide bags for the frames and will be responsible for removing the recyclable materials and taking them to a County drop-site.

For more information on the Lend-A-Bin program call Keep Charleston Beautiful at 579-7501.

If you have questions regarding recycling drop-sites or materials that are accepted please contact Charleston County at 720-7111.
